

Appl. No. 10/619,129

Amdt. dated July 23, 2004

Reply to Office action of June 28, 2004

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1 (original). A cableway system, comprising:

terminal stations formed with deflection wheels;

an endless load-bearing and conveying cable extending between said terminal stations and traveling about said deflection wheels in said terminal stations;

transportation devices each having a load-bearing suspension bar to be clamped to said cable for slaving the respective said transportation device along between said terminal stations;

a bearing for rotatably mounting said transportation device to said suspension bar about a substantially vertical axis; and

a damping device disposed to damp the mounting between said bearing and said suspension bar.

Claim 2 (original). The cableway system according to claim 1, which comprises a substantially horizontal beam disposed at a lower end of said suspension bar, and damping elements having

first ends attached to said beam and second ends attached to  
said bearing.

Claim 3 (original). The cableway system according to claim 1,  
wherein said transportation device is a cableway cabin with a  
roof, and a drive motor is disposed on said roof of said  
cableway cabin, for rotating said cableway cabin relative to  
said suspension bar.

Claim 4 (original). The cableway system according to claim 1,  
which further comprises solar elements supported on said  
transportation device.

Claim 5 (original). The cableway system according to claim 3,  
which further comprises solar elements supported on said roof  
of said cableway cabin.

Claim 6 (original). The cableway system according to claim 1,  
wherein said transportation devices are cabins or chairs.

Claim 7 (canceled).
